

2016-05-23 Meeting notes

Date

 23 May 2016

Attendees

- Leonid Marushevskiy
- Margreta Silverstone
- Pavel Khozhainov
- Vasu Srinivasan
- Monica Morales
- Vadim Vorobyov
- Dmytro Balym
- Patrick Forman

Goals

- Discuss navigation architecture
- Review interactive prototype (version number viewed #1)
- Collect feedback

Discussion items

| Time | Item | Who | Notes |
|-------|------------------------------|----------------------------------|--|
| 5min | Navigation architecture | Pavel Khozhainov | <ul style="list-style-type: none">• Navigation map was presented |
| 55min | Interactive prototype review | Pavel Khozhainov | <ul style="list-style-type: none">• Do we need two profiles for parents?• Login, registration• Inbox functionality: do we need outbox, inbox?• Let's keep prototype simple and limit a scope to requested functionality |

Action items

- ☒ Pavel Khozhainov - setup meeting with Shelly to discuss registration form fields and profile fields
03. Shelly - 05/25/2016 - UI feedback
- ☒ Pavel Khozhainov - remove second type of parent, treat the basic structure the same way with only some variations in the profile information
- ☒ Dariia Iarmuratii - Fix on login page: it should say "Sign in" not "Sing in". This appears as the heading in the text on this page: http://szuay.e.axshare.com/singn_up.html
- ☒ Dariia Iarmuratii - review Facilities page. Filter fields are confusing. User don't understand how to use them. Please review address and full-text search fields in such way that it will be intuitive for user how to use them.
- ☒ Dariia Iarmuratii - remove Calendar from main menu
- ☒ Dariia Iarmuratii - remove alert bell
- ☒ Dariia Iarmuratii - remove Dashboard
- ☒ Pavel Khozhainov - ask Shelly how to connect Inbox and Agencies? What process can be?
We come with Ask about button on the Agency details page
- ☒ Dariia Iarmuratii - remove person list in Inbox. Communication priority should be inbox, outbox, draft, deleted (and history) . We do not plan to build process for personal communication, the California legacy system shall support the routing. Person can create new message or answer on received message. Inbox needs to support attachments (PDF, pictures, etc.).
- ☒ Dariia Iarmuratii - add forget password to login page
- ☒

 Dariia Iarmuratii - Later feature may include social network support, not primary need

 [Dariia Iarmuratii](#) - Facility list on map needs to include a button that can be the start of asking their caseworker about that agency
