

2016-06-06 Sprint Demo Meeting notes

Date

 06 Jun 2016

Attendees

- [Margreta Silverstone](#)
- [Leonid Marushevskiy](#)
- [Vasu Srinivasan](#)
- [Pavel Khozhainov](#)
- [Faiyaz Shikari](#)
- [Kateryna Rud](#)
- [Maksym Kalynovskiy](#)
- [Pradeep Goel](#)
- [Patrick Forman](#)
- [Christopher Breining](#)
- [Jonathan Parker](#)
- [Sumant Anand](#)

Goals

- Review CWS Parent Portal

Discussion items

Time	Item	Who	Notes
	Confirm Agenda	Margreta	Confirmed
10 min	Sign In Page	Margreta / Leonid	Youtube feed and Twitter Pradeep requested EngagePoint CWS Channel of Youtube feed with
10 min	Registration	Margreta / Leonid	
10 min	Inbox	Margreta / Leonid	
10 min	Facility	Margreta / Leonid	
10 min	My Profile	Margreta / Leonid	
10 min	Responsive UI	Leonid	
5 min	Next Steps	Margreta / Leonid	Additional Usability Testing Finalization of documents QA and Deployment

Action items

Drop down list for other channels (Rutgers / Davis / US Davis) – make the drop down list

Leonid - API to Youtube - come filter the channels - do more definition of the criteria - Faiyaz - all potential - backlog - personalize - agency page

Pradeep - show our ability to agile / login with rich page. Pradeep - home page wanted it to be creative. Visual and emotional memory to be creative. Faiyaz - agile (show how built) - see the methodology - powerful how went to

Faiyaz - forget memorable - pretty / why this way - UX design - asked us to formulate - why pretty

Leonid - create an account - registration page - user name - case number - validation

Pradeep - Backlog - suggest a username. (feedback - check if available - green or not available, system suggestion)

Pradeep - no password tips (password rules)

Pradeep - fields optional / mandatory

Pavel - reason

Registered - need to see something on the page while waiting (need language)

Usability - not a good feature - social network

No one on login. Some on registration.

Pradeep - remembered - the link did not work - backlog -

Leonid - close

Pradeep - Mary Jenkins - Welcome message of the service and person to contact

Include a link the message

Secure inbox recommend (Pradeep)

Leonid - attach a file - reply

Thread of messages - can see the history, can see the send

Compose - Label name (change to Write)

Can change from Mary to generic

Character limit - not symbols - dynamic part - compose message to the person when they start. can filter with this person

Worker role - Mary Jenkins - message - in box for Mary should show Leonid, not Mary

Contact - three threads

Switch back to parent -

Leonid - facility viewer - all facilities around - pop up to start the search - Leonid did not enter an address - ask the user

Provide filler text for the search

Current sprint - has try to genericfilter - address

Faiyaz - searching from your address -

Leonid - sorted by distance - can expand a group if cannot see difference - expand and - zoom in and out is interacting with the list -

Pradeep - show sorted by distance - Leonid

18 - GitHub - short video - orientation - video clip - Do a user story video - compile

Labels for the filters (all types) - need better labels - search by facility data - search near this address - search by facility information, all, agency - consistent terminology (search by facility / type / status)

Reset filters in an odd location - Pradeep

One more feature - ask about - static text blocks - maybe some - not that format

User Profile - * optional - gender - flags

Per not to answer - option - text box

Remove the question?

Ask Caseworker -

How the application works - video - EngagePoint channel - 30

Channel deliverable - two birds - do our own channel - user had the discussion - relevant - Shane Evans -

Video feed - backlog items - EngagePoint channels - next 2 weeks - child welfare channel - content - channel - continuous improvement

Amazon cloud - schemas of deployment / according to technologies

Show handling volume

Two and half weeks - point of view - SF - security - fourth grade English - rationale - Faiyaz usability - terminology

Responsive UI - mobile - moved the size of the screen - process - still working on the mobile - compose does not show "inbox".

Minimum deliverable - weekends - tight schedule.

Pradeep - Grammar - channel for child welfare - philosophy -
