Discussion items

Time	Item	Who	Notes
5 min	Landing page	Pavel Khozhainov	<ul style="list-style-type: none">• Prototype is accepted, with suggested edits• Need to change all labels that say "Foster Care Parent Portal" to "CWS Parent Portal"• Need different text for the bulleted items• Need URLs for links in the footer• See Version 07 - 06/03/2016 comments for the edits
5 min	Log In / Registration	Pavel Khozhainov	<ul style="list-style-type: none">• Prototype accepted
15 min	Facility	Pavel Khozhainov	<ul style="list-style-type: none">• Pop up window if address has not been provided.• Improvement on drop down: multi-select from the list and the results show that a filter has been applied.• Ask About - want a generic name for the recipient - confirm JIRA input (please see ADPQ-107 - As a user, I want to be able from Facilities page to ask about some facility using private inbox DONE)
5 min	My Profile	Pavel Khozhainov	Expand windows for different sections of information (please see ADPQ-112 - As a user, I want to set my preferences for being alerted about messages in my private Inbox. TO DO for additional requested change)
5 min	Design - Sign In & Inbox	Pavel Khozhainov	Reviewed the design screens for Sign In and Inbox. The functionality remained consistent with Axure, the visualization included the use of color and other design elements.
5 min	Design - on Profile page has style guide for alerts Reset Password	Pavel Khozhainov	Popup for internal alerts - types of messages. Style guide for alerts (need to show also the other choices made within the US Style Guide) Not clear why there is a design for the reset password action

5 min	Inbox	Pavel Khozhainov	<p>Design does not show what is the basic view when first used (no messages).</p> <p>Compose - parent has caseworker, caseworker has the parents.</p> <p>See</p> <div> ADPQ-90 - As a user, I want to see a welcome message in my private inbox after registration DONE </div>
15 min	Facilities with Letters, Colors and Labels	Pavel Khozhainov	<p>Recommendation / Request: Show the facilities sorted by the distance from the home first.</p> <p>Choosing a facility from the list or choosing a facility from the map should show connected information. When the facility list is minimized, the full information about the facility should display when that pin is selected.</p> <p>We rely on the scale of the map to show facilities.</p> <p>Put additional fields on top that the user can utilize to filter the list.</p>
15 min	Java - performance issue - facility view	Leonid Marushevskiy	<p>Safari browser supported, others still in progress.</p> <p>Grouping of agencies, can zoom in and out and get different grouping.</p> <p>Can navigate to an address.</p> <p>Need to have a default location in California. The pop up window for address. Have address and scale.</p> <p>JIRA ticket exists on this item (</p> <div> ADPQ-103 - Develop UX design functionality where user can set location before start work with Facilities page DONE </div> <p>), need priority order, support:</p> <ul style="list-style-type: none"> • given address • given zip • mobile device • default - State office • query points by zip code
10 min	Inbox	Leonid Marushevskiy	<p>Default state without messages is not accurate</p> <p>Default - test message</p> <p>Can send message</p> <p>Can log out and log in for different roles</p> <p>Profile - if change address has a bug, address bug in JIRA (</p> <div> ADPQ-55 - Develop JS/Java implementation for user profile functionality DONE </div> <p>)</p> <p>Registration - working on Facebook integration - not sure how to host - create without a domain - register the host - discuss who will do it - host question may cause</p>
