## Action items

- ☐ [Dariia Iarmuratii](#) - On my Profile page make some separation between profile section (common, contact, password), eliminate scrolls
- ☐ [Dariia Iarmuratii](#), [Pavel Khozhainov](#) - On Landing/Logging page we need to brainstorm and come up with more creative landing page. Login functionality can be a part of this page. This page shall set some context for the user, can provide some information, videos incorporated, animation, etc.
- ☐ [Dariia Iarmuratii](#) - User Experience and Usability is a key point of procurement. We need to put as much attention and efforts into this component as we can. May be you can involve some other UX designers in the company in order to provide feedback and possible ideas for improvements.
