Main Screen, one of → Facilities Screen / Inbox Screen / My Profile Screen
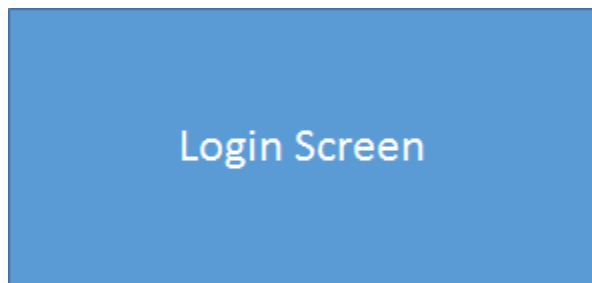

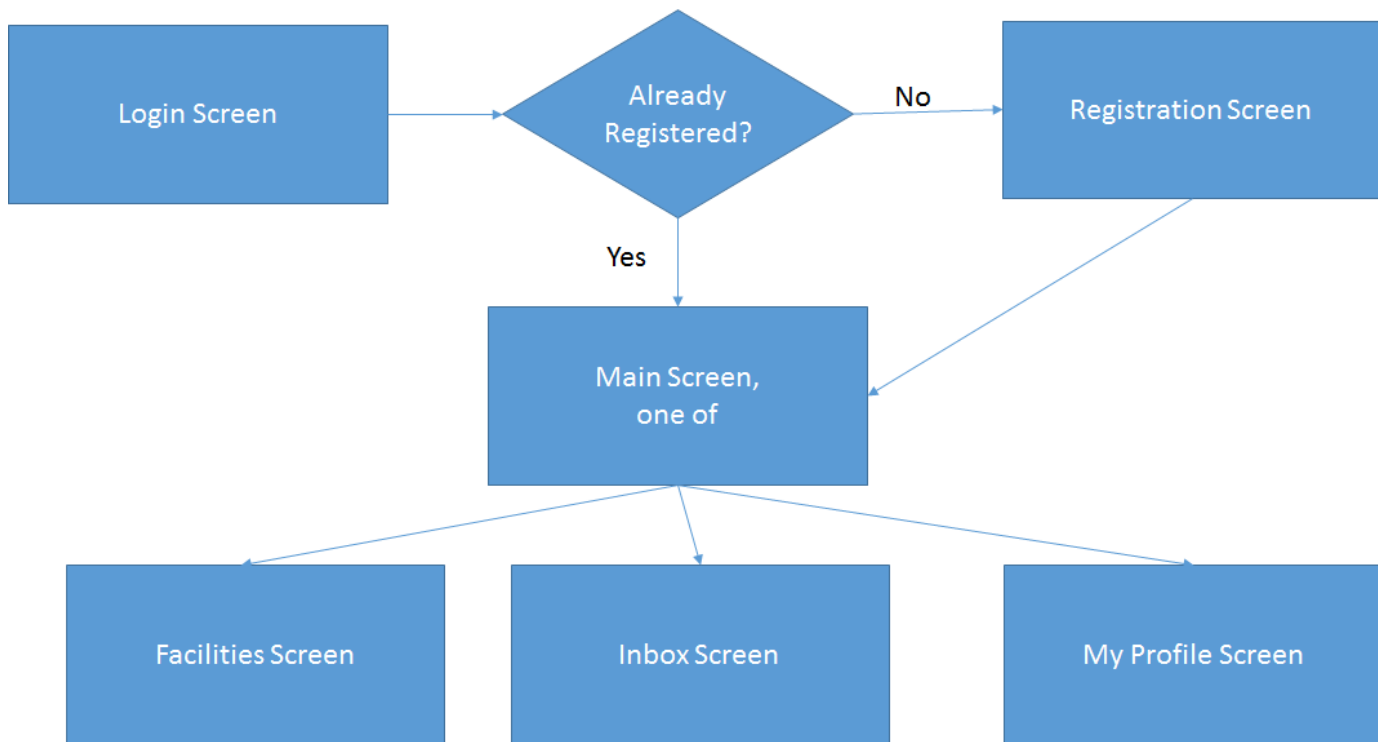

Login Screen

Same as we have today. No changes

Registration Screen
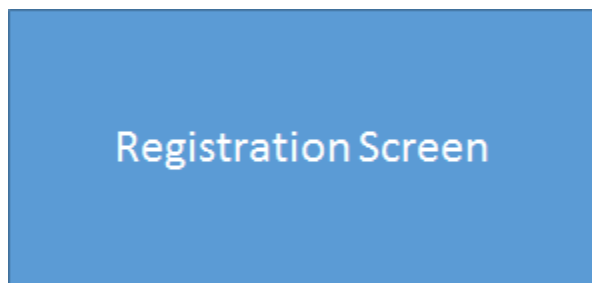

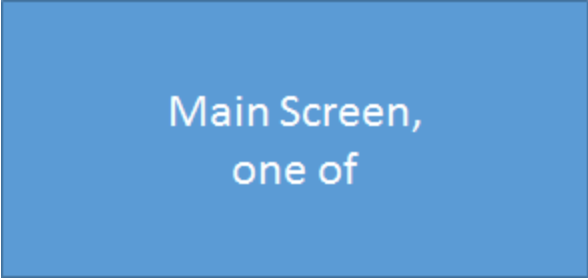

Self registration screen.

User enters desired login (check for presence), password, profile information, address, and contact information.

Foster Care Family Case # or License Case # (to connect the user to information in the CWS system as well support a Unique ID) .

After submitting their information, the user is redirected to the main screen.

Name and Address are mandatory fields.

We can use Captcha here to support some minimum level of security.

The main screen. Can be one of 3 major areas of activity – Foster care locations, Inbox messenger, and Personal profile.

For now it is not clear how to locate/visually display these 3 screens.

This screen will display information about children's residential facilities in the Parent's zip code.

This is Read Only UI for now.

See two examples of Facility record on the next slide.

See also field description next to examples.

See more on https://chhs.data.ca.gov/Facilities-and-Services/Community-Care-Licensing-Foster-Family-Agency-Loca/v9bn-m9p9#column-menu

The desired expected result may be similar to a Google map centered on the Parent's Location with facilities displayed in the same zip code.

We can also expect a table view for the same information.

When the user selects a facility, the full information must be shown.

Some Examples:

Facility Type ADOPTION AGENCY

Facility Number 15200804

Facility Name ALAMEDA COUNTY SOCIAL SERVICES AGENCY

Licensee ALAMEDA COUNTY SOCIAL SERVICES AGECNY

Facility Administrator LEE, SALLY

Facility Telephone Number (510) 268-2422

Facility Address 401 BROADWAY

Facility City OAKLAND

Facility State CA

Facility Zip 94604

County Name ALAMEDA

Regional Office 26

Facility Capacity 0

Facility Status LICENSED

License First Date 04/03/2000

Closed Date "empty field"

Location 401 BROADWAY OAKLAND, CA 94604

(37.797441°, -122.275554°)

Facility Type FOSTER FAMILY AGENCY

Facility Number 107200863

Facility Name QUALITY FOSTER CARE

Licensee QUALITY GROUP HOMES, INC.

Facility Administrator JOHNSON, D. MAE

Facility Telephone Number (559) 255-8519

Facility Address 4928 E. CLINTON, SUITE #108

Facility City FRESNO

Facility State CA

Facility Zip 93727

County Name FRESNO

Regional Office 24

Facility Capacity 27

Facility Status LICENSED

License First Date 05/12/1999

Closed Date "empty field"

Location 4928 E. CLINTON, SUITE #108 FRESNO, CA 93727 (36.772156°, -119.730432°)

Field descriptions

Facility Type: (plain text, in current set 2 values are visible)

ADOPTION AGENCY

FOSTER FAMILY AGENCY

Facility Number: (unique number assigned to the facility)

There is some logic inside this UID generation process (prefix and suffix) but we do not need it.

Facility Name: plain text

Facility Administrator: (plain person name)

Can be empty (2 cases)

Facility Telephone Number: (just one phone number)

Can be empty.

Facility Address: address line1 and line2

Facility City: just city

Facility State: just state (Actually CA)

Facility Zip: zip code (5 digits)

County Name: The County name

Regional Office: The code for regional office – text (actually 2 digits)

Facility Status: (plain text, in current set one of 4)

CLOSED

LICENSED

PENDING

UNLICENSED

License First: the date field
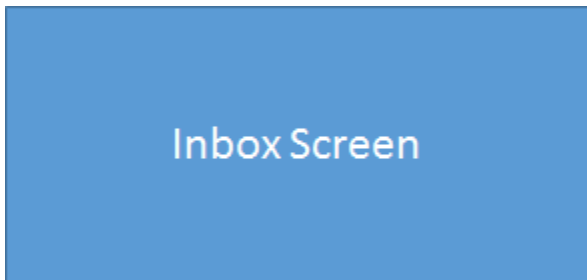

MM/DD/YYYY

Can be empty

Closed date: the date field

MM/DD/YYYY

Can be empty

For non CLOSED status

Location: Geocode Google location of the facility with coordinates (latitude/longitude) in degrees. For map usage only.

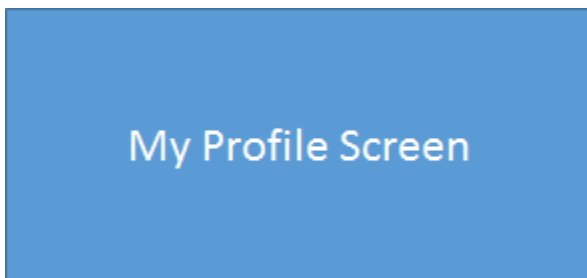

Here Parent will "communicate with the case worker via a private inbox."
For now we must provide 2 functions:

1. Allow parent to send message to (CWS or Caseworker)
2. Allow parent to receive messages from (CWS or Caseworker)

We may wish to have a multi-folder Message client – not clear for now.

The basic content of the My Profile Screen would support the same functionality as the registration but would not invoke captcha.
